

GOLD AWARD

Anita Oliveira de Paula Eduardo

“Messenger Bird”

School: **Spencer Elementary
Brighton**

Teacher: **Gillian McColgan**

Mentor: **Jacob Viau**

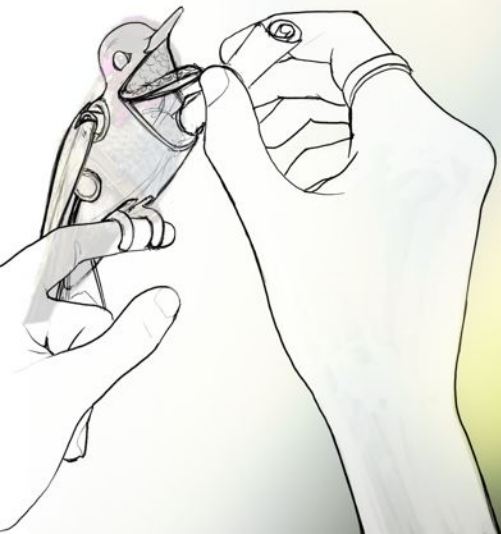

Design Concept:

My design is a hummingbird. It has camera eyes and a tracker on the tail feathers. Also, it can fly and carry messages. It is covid safe because you do it from your house and it brings people together because of the messages .

MESSENGER BIRD

autonomous note courier

This kid-safe drone provides fun and safe communication between friends and family. Breathing life into the fading art or handwritten notes, Messenger Bird happily chirps upon completion of a task.
